

05H

High-performance Vocal Microphone with adapted sensitivity for deep vocals

The OSL 05H features incredible off-axis rejection, a flat frequency response & a large diaphragm. If you want a dark but articulate sound, that emphasizes the warmth of a voice but has all the detail of a condenser, or are on a budget, then this mic is fantastic. Sopranos, higher pitched male singers, and vocalists with thinner voices benefit from this mic.

Technical Specifications

Type	Dynamic
Frequency Response	40 Hz - 16 KHz
Polar Pattern	Cardioid
Sensitivity	-51 dBV/Pa (1.85 mV)
